The facility represents a significant step in fresh produce packaging technology, underscoring Silal's commitment to quality, innovation, safety andÂ sustainability

Silal, Abu Dhabiâ??s leading Agrifood and technology company, has inaugurated its automated packhouse in Al Ain, spanning 12,000 square metres. The facility represents a significant step in fresh produce packaging technology, underscoring Silal's commitment to quality, innovation, safety and sustainability.

Silal's packhouse serves as a testament to the company's unwavering commitment to providing fresh produce to its customers. With a total capacity of 325 tonnes per day, capable of producing over 180,000 packs daily, and equipped with 28 pre-cooling chambers and 9 cold stores, Silal has optimised every aspect of the packaging process. This state-of-the-art facility ensures the highest quality standards but also demonstrates Silal's dedication to efficiency and service excellence.

Silal's investment in this cutting-edge infrastructure reflects its vision to champion economic development while catering to the evolving needs of consumers. The packhouse represents a milestone in Silal's ongoing mission to redefine standards in the fresh produce industry, setting a benchmark for quality, and efficiency.
