Plug and Play launches new food tech program in Thailand

31 July 2020 | News

Plug and Play Asia Pacific has announced that they will launch its first Southeast Asiaâ??s Food and AgTech Accelerator Program in Bangkok on July 29, 2020. The program is dedicated to scaling the worldâ??s most promising startups who can help address the current challenges across the food production value chain from farm to table."We are very excited to bring about a new innovation track in Food & AgTech after the success of our Smart Cities Program. We plan to source and engage the most innovative startups to digitally transform corporations and provide new opportunities for investments in the ASEAN region," said Shawn Dehpanah, EVP, Head of Corporate Innovation APAC at Plug and Play.

To connect leading corporations, governments, and investors with the Plug and Play ecosystem which boasts over 20,000 startups

Plug and Play Asia Pacific has announced that they will launch its first Southeast Asiaâ??s Food and AgTech Accelerator Program in Bangkok on July 29, 2020. The program is dedicated to scaling the worldâ??s most promising startups who can help address the current challenges across the food production value chain from farm to table.

"We are very excited to bring about a new innovation track in Food & AgTech after the success of our Smart Cities Program. We plan to source and engage the most innovative startups to digitally transform corporations and provide new opportunities for investments in the ASEAN region," said Shawn Dehpanah, EVP, Head of Corporate Innovation APAC at Plug and Play.

Plug and Playâ??s Food and AgTech Accelerator Program in Thailand will connect leading corporations, governments, and investors with the Plug and Play ecosystem which boasts over 20,000 startups, with technologies ranging from Digital & Sustainable Farming, Feed & Animal Health, Food Processing, Microbiome, Personalized Nutrition, Supply Chain Logistics, Waste Reduction, Consumer Analytics & Retail.
