Azelis strengthens Asia Pacific footprint, acquires majority stake in Catalite in Thailand

18 January 2022 | News

Azelis, a leading global innovation service provider in the specialty chemicals and food ingredients industry, announces the acquisition of a majority stake in Catalite Co., Ltd. (“Catalite”), a well-established distributor of specialty chemicals in the Personal Care and Home Care market segments, as well as industrial formulators, intermediates and coatings, in Thailand.

With an attractive portfolio of products from several key principals, Catalite serves a large, growing customer base from its site in Bangkok, providing the Group a solid platform to accelerate its growth in the domestic market, and the wider Asia Pacific region.

Azelis, a leading global innovation service provider in the specialty chemicals and food ingredients industry, announces the acquisition of a majority stake in Catalite Co., Ltd. (“Catalite”), a well-established distributor of specialty chemicals in the Personal Care and Home Care market segments, as well as industrial formulators, intermediates and coatings, in Thailand.

The acquisition reinforces the Group’s footprint in the Life Sciences market, and complements its Industrial Chemicals portfolio in the country. With an attractive portfolio of products from several key principals, Catalite serves a large, growing customer base from its site in Bangkok, providing the Group a solid platform to accelerate its growth in the domestic market, and the wider Asia Pacific region.

Ms. Udomlak Kootiratrakarn, CEO of Catalite, comments:

“We are pleased to embark on this new chapter in our company’s history with Azelis. Becoming part of a renowned international player will be beneficial for our company, customers and principals, with numerous opportunities for growth, and great synergies for both companies. Combining our strengths with Azelis’ will give us access to other reputable principals, further reinforce our technical expertise and formulation development, and enable us to better serve our customers.”
