中国, 湖北省, 宜昌市, 城东大道168号

Has been audited and certified to the USDA organic regulations, 7 CFR Part 205

National Organic Program

Angel's product quality has been recognized by the authority again, which is conducive to angel's further cultivation of the organic food market.

Recently, Angel Yichang factory passed the on-site audit on the production of organic flake yeast by Ecocert, the EU organic certification agency.

The auditor reviewed the procurement, warehousing, storage and other processes of the company's organic raw materials, as well as the drum drying and packaging of organic products, and checked the site clearing process before processing according to the requirements of The Standard Regulation F19. Finally, flake yeast obtained the EU organic certification.

Through this organic certification, Angel's product quality has been recognized by the authority again, which is conducive to angel's further cultivation of the organic food market.
