North America continues to be one of the world's largest markets for fungi and represents one of Farmmi's biggest growth opportunities outside of China

Farmmi, Inc. an agricultural products supplier in China, announced that one of its long-term customers placed a multi-product order for dried Shiitake mushrooms and black Mu Er mushrooms. The order will ship for final sale at Canada's largest Asian supermarket group.

Ms. Yefang Zhang, Farmmi's Chairwoman and CEO, commented "North America continues to be one of the world's largest markets for fungi and represents one of Farmmi's biggest growth opportunities outside of China. We are really pleased with the positive demand growth we are seeing and expect the environment to remain robust. Importantly, mushrooms are benefitting from their mainstream appeal and are uniquely popular with both non-meat and meat diets. We are also excited about ongoing innovations in flavor, seasoning and textures, which will help to even further expand the market and broaden popularity for our high-quality products."
