Singaporeâ??s Grobrix and ComCrop join forces to supply salad bundle

16 October 2023 | News

The freshest salad greens are delivered mere hours after being harvested

The freshest salad greens are delivered mere hours after being harvested

Grobrix and ComCrop, have joined forces to unveil an extraordinary offering: The Living Dot Super Salad Bundle subscription.

The freshest salad greens are delivered mere hours after being harvested. ComCrop SG's locally grown greens boast a remarkable 3 Star Clean & Green certification, setting them apart as the epitome of quality, outshining international imports, and staying remarkably fresh, up to 3 to 5 times longer.

The Living Dot Super Salad Bundle is cultivated by Singaporeans, for Singaporeans, with the intent of nurturing a culture of health and well-being within your organisation.

What makes this offering truly unique is that it's not merely a subscription; it's a partnership between your company and a larger cause, to bolster Singapore's food security and protect the environment.

You also have the option to contribute a portion of your subscription to those in need, transforming it into the perfect corporate gift, a gift that embodies sustainability, health, and everlasting freshness.

Opting for this subscription isn't just a savvy business move; it's a resounding endorsement of Singapore's 30x30 food security program. These greens not only last longer, contributing to a healthier corporate culture within your team, but also provide a chance to make a difference in your local community.

It's more than just a step forward; it's a giant leap towards sustainability. By embracing the Super Salad Bundle, you'll unlock numerous PR opportunities, shining a spotlight on your dedication to a greener, healthier future.
