Healyn Canxi Gold is a specialised colostrum source of Organic Calcium Nano, Vitamins, and minerals, meticulously designed to cater to individuals with bone and joint concerns requiring daily calcium support

Nature Made Production and Trading JSC introduced Healyn Canxi Gold, a groundbreaking solution tailored to address the crucial need for effective calcium supplementation in the Philippines. Manufactured in Hanoi, Vietnam, Healyn Canxi Gold is a specialised colostrum source of Organic Calcium Nano, Vitamins, and minerals, meticulously designed to cater to individuals with bone and joint concerns requiring daily calcium support.

Healyn Canxi Gold is committed to providing consumers with the safest and most effective product. This dedication is underscored by the attainment of ISO 22000:2018 certification (Certificate No: HT.02.1037), affirming compliance with stringent food safety standards. The manufacturing facility aligns with US FDA standards, reinforcing the product's commitment to quality and safety.

Constituting 1.5-2 per cent of the body's weight, Calcium is indispensable for bone health, muscular and nervous system function, heart activity, and cellular metabolism. A deficiency in Calcium can lead to reduced bone density, the primary cause of osteoporosis, rendering bones weak and susceptible to fractures, especially in older individuals.
