Canada Royal Milk launches Niuriss baby formula

16 July 2024 | News

Niuriss is the only infant formula made inÂ Canada, with the capacity to produce enough formula to meet the needs of the Canadian market entirely

Niuriss is the only infant formula made inÂ Canada, with the capacity to produce enough formula to meet the needs of the Canadian market entirely

Canada Royal Milk announced the inaugural launch of Niuriss, a baby formula designed to provide Canadian parents with a reliable and sustainable source of high-quality nutrition for their little ones. Niuriss is now available online, and with the purchase of two cans, parents will get free delivery across Canada.

Niuriss is the only infant formula made in Canada, with the capacity to produce enough formula to meet the needs of the Canadian market entirely.

"Made inÂ CanadaÂ â?? the strength that sets us apart," saysÂ Chenggang Han, Canadian Royal Milk General Manager. "Niuriss is made for Canadian parents who value the highest safety and quality standards."

Niuriss is committed to delivering top-quality infant nutrition by adhering to the highest global standards of quality and safety. Produced in a premier North American facility, every can of Niuriss formula is crafted with care, using premium ingredients and locally sourced Canadian milk free from artificial growth hormones and antibiotics. Plus it has first-to-market OPO lipids structured to be similar to breast milk, providing multiple benefits for baby development and growth. Niuriss formula is both Kosher and Halal certified.
