

Refresco acquires FrÃas Spanish manufacturer of plant-based drinks

22 July 2024 | News

FrÃas produces private-label plant-based drinks, including almond, rice, hazelnut, and soy drinks, for key Spanish retailers and beyond

FrÃas produces private-label plant-based drinks, including almond, rice, hazelnut, and soy drinks, for key Spanish retailers and beyond

Refresco, the global independent beverage solutions provider for retailers and global, national, and emerging (GNE) brands in Europe, North America, and Australia, announces it has agreed to acquire FrÃas NutriciÃ³n (FrÃas) from Alantra Private Equity and the founding family. This transaction is subject to regulatory approval.

FrÃas is a leading manufacturer of plant-based drinks with a production facility located in Burgos, Spain and employs around 250 people. FrÃas produces private-label plant-based drinks, including almond, rice, hazelnut, and soy drinks, for key Spanish retailers and beyond.

Hans Roelofs, CEO of Refresco, commented, âAs part of our proven Buy & Build strategy, we are looking to expand our capabilities in existing and adjacent beverage categories. The acquisition of FrÃas significantly strengthens our position in the fast-growing plant-based drinks category. It complements our existing footprint in Spain with a production facility solely dedicated to plant-based products.
