Kimchi Pickle Chips are made with the highest quality ingredients, including fresh vegetables, natural spices, and a light fermentation process that ensures a perfect balance of flavour and crunch

Kimchi Pickle Chips are made with the highest quality ingredients, including fresh vegetables, natural spices, and a light fermentation process that ensures a perfect balance of flavour and crunch

Cleveland Kitchen, a leading innovator in the fermented food industry announced the nationwide launch of its latest product, the 24ozÂ Kimchi Pickle Chip, now available at Walmart stores, nationwide. This unique offering combines the vibrant, tangy flavours of traditional kimchi with the crispness of pickles, creating an irresistible, game-changing fusion that is sure to delight taste buds across the country.

Kimchi Pickle Chips are made with the highest quality ingredients, including fresh vegetables, natural spices, and a light fermentation process that ensures a perfect balance of flavour and crunch. This product not only caters to the growing demand for exotic and healthy food options but also adds a bold new twist to the classic pickle.

Flavor Innovation: Combines traditional kimchi flavour with a classic pickle crunch. - High-Quality Ingredients: Made with fresh vegetables, natural flavours and free from artificial preservatives.

Health Benefits: Rich in prebiotics, supporting digestive health and overall well-being.

Versatile Use: Perfect as a snack, side dish, or ingredient in various recipes, adding a flavorful punch to any meal.
