Kabrita, the leading provider of goat milk nutrition in the world, announced its expansion into Canada with the launch of its highly-anticipated Goat Milk-Based Toddler Nutrition for toddlers aged 12-36 months. Kabrita Toddler Nutrition is now available across Canada for the first time for Canadian families to purchase on Amazon.ca and will be available in major retailers including Loblaws and Farm Boy nationwide early this fall. The Toddler Nutrition drink is now available in 800-gram canisters for $49.99.

â??On behalf of Kabrita, which is backed by 75 years of formula experience and is trusted by parents in over 60 countries, we are proud to introduce our Toddler Nutrition to Canadian families,â? said Jacqueline Lipiec, General Manager of Kabrita North America. â??With more than 1.5 million babies fed Kabrita daily worldwide, our formula offers Canadian parents a science-backed, gentle, and nutritious option for their toddlers.â?

Made with grass-fed, whole goat milk, Kabrita Toddler Nutrition is naturally gentle on tummies and contains 24 essential nutrients for Canadian toddlers. The easy-to-digest goat milk proteins and natural prebiotics help support a healthy gut and immune system.

Kabrita Toddler Nutrition is made in the Netherlands where strict European standards limit the use of pesticides, antibiotics, and growth hormones, and it contains no added GMO ingredients or corn syrup. Kabrita Toddler Nutrition is also Clean Label Project certified, with a Purity Award, Pesticide-Free certification, and a First 1,000 Day Promise certification, meaning the formula has been tested for over 400 heavy metals, toxins, pesticides, and other contaminants.
