This new store adds to the global network of over 200 Starbucks community stores and over 50 Asian Pacific stores

This new store adds to the global network of over 200 Starbucks community stores and over 50 Asian Pacific stores

Starbucks Philippines continues its commitment to youth education by opening its second community store in the market in Maysilo Circle, Mandaluyong City. This new store adds to the global network of over 200 Starbucks Community Stores and over 50 Asian Pacific stores. Starbucks Community Stores create environments that aim to help uplift communities in locally relevant ways. These store concepts are led by partners who directly connect to the initiative or cause of that store and provide intentional and dedicated programming and experiences.

Building on the positive impact on youth created by Starbucks Philippines' first Community Store in Abad Santos Tondo last September, this new store continues to create economic opportunities and empower underserved communities through youth education.

Starting this October, Starbucks Philippines, in partnership with Mano Amiga, will launch the Raising Readers and Raising Leaders programs. These initiatives will benefit underprivileged youth at Nayon ng Kabataan in the Welfareville community, Mandaluyong City. Raising Readers promotes literacy through storytelling, arts and crafts, and nutritious meals. Raising Leaders offers leadership training, life skills workshops, scholarships, and school placement support. Together, these programs aim to advance children's education and positively impact their communities.
