OATRAGEOUS Oat Milk Liqueur announces the launch of its innovative, dairy-free cream liqueur line, setting a new standard in the cream liqueur category. Crafted with the highest quality ingredients, OATRAGEOUS offers a plant-based alternative that is free from dairy, gluten, lactose, high fructose corn syrup, artificial sweeteners, and seed oils.

OATRAGEOUS is proudly the first portfolio of Oat Milk Liqueurs to hit shelves in the United States.

OATRAGEOUS will debut three core SKUs this fall: Coconut, Espresso, and the world's first Dairy-Free Bourbon Cream (14 per cent ABV).

OATRAGEOUS Oat Milk Liqueur is designed for those who seek indulgence without compromise. OATRAGEOUS delivers a light, smooth, and creamy experience while boasting less sugar and fewer calories versus traditional cream liqueurs. The expressions are crafted with 100 per cent sustainably sourced, non-GMO oats, smooth bourbon whiskey and real ingredients.
