Oasis provides a unique alternative in the energy drink market, using natural ingredients like green coffee, Guayusa leaf, and Alpha GCP to fuel a limitless lifestyle

Oasis provides a unique alternative in the energy drink market, using natural ingredients like green coffee, Guayusa leaf, and Alpha GCP to fuel a limitless lifestyle

Oasis introduces the latest innovation in natural energy drinks, designed to keep consumers energised and focused without the jitters of a dreaded post-caffeine slump. Oasis offers a cutting-edge blend of natural caffeine and cognitive enhancers for clean, all-day energy.

Oasis provides a unique alternative in the energy drink market, using natural ingredients like green coffee, Guayusa leaf, and Alpha GCP to fuel a limitless lifestyle. With 160 mg of caffeine, Oasis delivers a balanced boost ideal for active, busy people—without the excessive caffeine content and crash associated with synthetic energy drinks. Available now in refreshing Blue Raspberry, Oasis will expand its lineup in Q1 2025 with two exciting new flavours: Strawberry Kiwi and Peach Mango.

Crafted for people on the go, Oasis combines science-backed ingredients to provide a smarter, healthier energy boost:

Sustainable Energy: The 160 mg of caffeine is derived naturally, delivering smooth energy and focus throughout the day without a heavy caffeine crash.

Zero Sugar, Zero Calories: With Oasis, consumers can enjoy clean energy without compromising their health and wellness goals.

Flavour without Compromise: The guilt-free formula is packed with flavour, letting consumers enjoy a tasty, refreshing experience with every sip.
