These flowers are ideal for adventurous dishes or as a refreshing twist on mocktails

UAE-based UNS Vertical Farms has announced the expansion of its edible flower range with the launch of the new UNS Assorted Flowers collection. Mehlam Murtaza, Executive Director of UNS Farms, emphasises, "These blooms aren't just for professional chefs—they're for everyone. By incorporating edible flowers into your meals, you can add colour, flavour, and a nutritional boost to your daily diet."

According to the press release, the UNS Assorted Flowers Collection celebrates the beauty and flavour of nature by offering a wide range of vibrant, edible blooms designed to elevate your culinary creations. Each flower is grown with care using advanced hydroponic methods, ensuring exceptional freshness and sustainability while providing a variety of unique tastes and textures.

Among the collection, the UNS Buzz Buttons stand out with their bold yellow blossoms, delivering an electrifying, zesty sensation. These flowers are perfect for adventurous dishes or as a refreshing twist in mocktails. For those seeking to add a touch of sophistication, the UNS Red Rose Petals provide a delicate, fragrant essence that enhances everything from decadent desserts to savoury plates and beverages.

The UNS Pansy Flowers are an ideal choice for mild sweetness and vibrant colours. Their delicate petals can brighten any salad, dessert, or garnish. Similarly, the UNS Mixed Viola offers a delightful blend of sweet flavours, adding a whimsical and

tasty touch to a wide variety of dishes.
