The series is exclusively available at Jeju duty-free and features packaging inspired by Yilan's iconic Snow Mountain range, Kavalan's pure water source

The series is exclusively available at Jeju duty-free and features packaging inspired by Yilan's iconic Snow Mountain range, Kavalan's pure water source

Kavalan Distillery unveiled The Distiller's Reserve Series, an exclusive creation crafted for Jeju Island in collaboration with the Jeju Tourism Organization (Korea). This new series celebrates the harmony between Jeju's pristine waters, and lush landscapes, and Kavalan's iconic Snow Mountain range.

Featuring a masterful core of ex-Bourbon casks, the series introduces two exceptional expressions that showcase Kavalan's artistry. Distiller's Reserve No. 1 marries ex-Bourbon casks with rare Spanish Fino sherry and rum casks, creating a luxurious profile with indulgent notes of strawberry shortcake, citrus, macadamia, and chocolate—a decadent journey for the senses. In contrast, Distiller's Reserve No. 2 combines ex-Bourbon casks with rare Spanish Manzanilla sherry and brandy casks, unveiling tropical hints of vanilla ice cream, sea salt, and pineapple for a vibrant and refreshing flavour experience.

The series is exclusively available at Jeju duty-free and features packaging inspired by Yilan's iconic Snow Mountain range, Kavalan's pure water source. The green and blue design reflects Jeju Island's untouched environment and its connection to nature's purity.
