The acquisition of Allied brings together these leading kosher brands under one roof

The acquisition of Allied brings together these leading kosher brands under one roof

Consco Foods Inc., a leading protein importer, exporter and master distributor, announced the acquisition of Allied Food Distributors, a prominent Canadian, worldwide importer and distributor of high-quality kosher food brands.

For over 90 years, Allied has built a strong reputation sourcing and distributing premium kosher food products to customers across Canada. As the Canadian importer and distributor of OSEM products, along with other leading global brands, Allied is recognised as a trusted and dynamic partner.

Effective August 1, 2025, Consco has also been appointed the exclusive Canadian importer and distribution partner for Agri Star Meat & Poultry, known for its Aaron's Best brand of deli products. The acquisition of Allied brings together these leading kosher brands under one roof, significantly expanding the product offering and positioning the combined companies as the go-to distributor for quality kosher products, from around the world, delivered with reliability, efficiency, and a commitment to customer service.

Allied's operations have transitioned to Consco's 140,000 sq. foot state-of-the-art distribution centre. While fully integrated into Consco's infrastructure, Allied will continue to operate independently on a day-to-day basis as a division of Consco Foods. This structure preserves the strength of the Allied brand and its long-standing relationships, while enhancing service, product offering, and national reach.

"We're passionate about the kosher space and see this as a tremendous opportunity to grow with best-in-class product offerings and brands," said Ronnie and Mikey Cons, Co-Presidents of Consco Foods. "The addition of Allied as a division of Consco allows us to expand our offering with the right partners, the right brands, and a strong commitment to service."
