Registration is now open for Fi Asia Thailand 2025, Asiaâ??s premier international event for food ingredients, scheduled to take place from September 17 to 19, 2025, at the Queen Sirikit National Convention Centre (QSNCC), Bangkok.

The exhibition, co-located with Vitafoods Asia 2025, will host the regionâ??s largest gathering of ingredient buyers, innovators, and decision-makers, providing visitors with seamless access to both events.

This yearâ??s edition features leading global suppliers such as Kerry, Ingredion, Brenntag, Lonza and IMCD, alongside established Thai companies including Food Ingredient Technology, Multitech Foods, Premium Foods and Yearrakarn.

â??Fi Asia stands as the regionâ??s premier international event for the food ingredients industry, serving as a melting pot of inspiration, education and innovation,â?• said Rose Chitanuwat, ASEAN Regional Group Director, Informa Markets Thailand. â??Thailandâ??s advanced F&B sector makes Bangkok the ideal location for businesses looking to grow in Southeast Asia.â?•

Innovation at the Forefront

Fi Asia Thailand 2025 introduces several enhanced features:

A to C Interactive Showcase â?? bridging academic research and commercial applications through breakthrough studies from Thai universities.

Innovation Zone, powered by Innova Market Insights, highlights cutting-edge new ingredients.

Innovation Tours, curated by Nutrimarketing, offer expert-led deep dives into specific topics.

A comprehensive conference programme across four tracks: Functional Food, Alternative Protein, Organic Food, and Medical & Personalised Food.

Additionally, the Startup Innovation Challenge returns for its 6th edition under the theme â??The Power of Local Ingredientsâ?•, spotlighting Thai SMEs and startups driving sustainable growth.

Growing Market Opportunities

Asiaâ??s food ingredients sector continues to expand, driven by consumer demand for healthier, convenient and functional foods. The co-location with Vitafoods Asia reflects the growing convergence of food and nutraceuticals, offering attendees insights into the latest in preventative health, functional foods, and nutrition-driven product development.
