Rich and creamy, the all-new plant-based Coconut Milk by Royal Grove brings the naturally sweet taste and aroma of fresh coconuts to every recipe.

Made using a specialised process that retains the smooth texture and authentic coconut flavour, Royal Grove Coconut Milk blends effortlessly into a wide variety of dishes and beverages. From slurp-worthy bowls of Thai Green Curry and Tom Kha soup to silky coconut puddings, smoothies, baked treats, coconut coffees, refreshing piña coladas, cocktails, and

mocktails, it adds a rich, velvety finish with every spoonful and sip.

Designed for the evolving preferences of modern kitchens, the range is available in two variants: 12%14 per cent coconut extract for lighter recipes and 17%19 per cent coconut extract for a richer, creamier texture, making it ideal for both everyday cooking and professional culinary creations.

Naturally lactose-friendly, cholesterol-free, and free from added colours, artificial flavourings, and preservatives, Royal Grove Coconut Milk offers a versatile dairy alternative for everything from comforting curries to indulgent desserts and beverages.

Packed in a convenient 400ml can for freshness and ease of use, Royal Grove Coconut Milk is now available on Amazon, Blinkit, and at select retail stores.
