Azelis Expands dsm-firmenich Ingredient Distribution Partnership to Singapore and Malaysia

10 August 2026 | News

The portfolio includes premix solutions, vitamins (including antioxidants), carotenoids, nutritional ingredients, nutritional lipids, cultures, food and dairy enzymes (excluding baking enzymes), hydrocolloids, and antibiotic residue testing kits

Azelis, the reference innovation service provider in the speciality chemicals and food ingredients industry, announced the expansion of its partnership with dsm-firmenich for the distribution of its Food & Beverage Ingredient Solutions portfolio in Singapore and Malaysia. Effective 1 August 2026, the agreement expands Azelis's Food & Nutrition offering in both markets.

The portfolio includes premix solutions, vitamins (including antioxidants), carotenoids, nutritional ingredients, nutritional lipids, cultures, food and dairy enzymes (excluding baking enzymes), hydrocolloids, and antibiotic residue testing kits. Customers will benefit from local access to these solutions, supported by Azelis's technical expertise, formulation capabilities and responsive commercial support.

Customers gain access to dsm-firmenich's Food & Beverage Ingredient Solutions portfolio, backed by local regulatory, technical and formulation expertise.

dsm-firmenich strengthens its market presence in Singapore and Malaysia through Azelis's established customer network, technical expertise and local market knowledge.

Azelis broadens its Food & Nutrition portfolio, strengthening its position as an innovation partner while creating new growth opportunities.

This agreement builds on the successful collaboration between Azelis and dsm-firmenich in India and reflects the companies' shared focus on delivering innovative ingredient solutions supported by strong local execution.

Christian Petersen, Senior Director, Regional Sales APA TTH, dsm-firmenich, comments, "Expanding our partnership with Azelis in Singapore and Malaysia reflects our confidence in their local market knowledge and ability to support customers with technical expertise and application development. Together, we look forward to helping food and beverage manufacturers accelerate innovation and respond to changing consumer needs."

Kamal Hezry, Managing Director, Malaysia and Vietnam, Azelis, comments, "This partnership enables us to offer customers a broader portfolio of ingredient solutions supported by our local teams and formulation expertise. Together with dsm-firmenich, we look forward to helping manufacturers develop innovative products and bring them to market more efficiently."
